### **Chapter 3: The Animal's World Notes**

Different kinds of animals live around us. Animals have different shapes and sizes. Some of them are big, some are small. Some animals live in forests. They are called wild animals. We can see wild animals in a zoo. All these animals have four legs.

Examples:

Camel, Elephant, Lion, Tiger, Deer, Rhino, Bear and Giraffe etc.

#### **Small Animals:**

Some animals are small. Most birds, insects and worms are small animals. Four-legged animals like the mouse are small.

Examples:

Mouse, Pigeon, Cockroach etc.

#### **Domestic Animals:**

We keep some animals in our houses. They are called domestic animals. Domestic animals are useful to us. We get milk, eggs, meat and wool from domestic animals.

Examples:

Cow, Sheep, Goat etc.

#### **Birds**

We see many kind of birds around us. Birds can fly in the air. Children have to watch the birds. The ostrich and the emu cannot fly. They can walk and run.

Examples:

Hen, Peacock, Crow, Parrot etc.

Birds have wings and feather on their body. Wings help them to fly. Birds have two legs. Legs help them to walk. Some birds like ducks and swans can swim.

Examples:

Ostrich, Swan, Duck etc.

### **Insects**

Insects are small animals. They have six legs. Some insects have wings. They can fly.

Examples:

Ant, Mosquito, Housefly, Cockroach etc.

### **Water Animals**

Some animals live in water. They cannot live on land.

Examples:

Whale Fish Octopus Turtle etc.

### **Land and Water both**

Some animals live both on land and in water.

Examples:

Crocodile, Frog, Tortoise etc.

### **Where does animal live?**

Some animals live on land. The cow, elephant, horse, dog are some animals which live on land. Water animal live in water. Many birds, insects and animals live on trees.

### **Important Notes:**

1. Different kinds of animals live around us.
2. Birds have feathers and wings.
3. All insects have six legs. They are small animals.
4. Animals live on land, on trees and in water.
