Chapter 4: Food and Shelter of Animals Notes

All living things need food to live and grow. Animals are also living things. They eat different types of food.

Plant Eater Animals:

Some animals eat grass and green plants. They are called plant eaters.

Examples:

Cow, deer, goat and buffalo etc.

Flesh Eater Animals:

Some animals eat the flesh of other animals. Such animals are called flesh eaters.

Examples:

Lion, Tiger, Eagle etc.

Grain Eaters

Some animals eat grains and nuts.

Examples:

Mouse, Squirrel, Hen etc.

Insect Eater Animals:

Some animals eat insects.

Examples:

Frog, Spider, Lizard etc.

Plant and Flesh Eater Animals:

Some animals eat both plants and flesh of other animals.

Examples:

Jackal, Dog, Cat, Crow etc.

Homes of Animals:

Like us, animals too need homes to live in. Homes protect them from sun, cold, rain, wind and their enemies. Animals have different kinds of homes. People prepare special home for their pet animals.

Animal	Their Home
Rabbit	Burrow
Hen	Coop
Dog	Kennel
Bird	Nest
Horse	Stable
Parrot	Cage
Bees	Hives
Cow	Shed
Sheep	Den
